KIRSTEN CURRIE

ECOMMERCE & CONSUMER ANALYTICS ANALYST

(760) 828-0882 | kirstenlynncurrie@gmail.com | linkedin.com/in/kirstencurrie | kirstencurrie.github.io

PROFILE

Ecommerce and consumer analytics professional with experience translating customer behavior, sales performance, and marketing data into strategic, executive-ready insights for fashion retail brands. Proven track record designing A/B tests, conducting lifecycle and retention analyses, and building BI reporting solutions that influence merchandising, promotional, and growth strategy. Deep apparel background provides rare ability to contextualize digital data within the full consumer and product lifecycle.

EXPERIENCE

Ecommerce Data Analyst May 2025 – Present

Kontoor Brands, Inc. (Wrangler, Lee) | Greensboro, NC

- Conducted customer lifecycle and churn analysis identifying a 70%+ churn rate following a discontinued product line, delivering strategic recommendations — including CRM reactivation and product bundling — to recover revenue and improve long-term customer value.
- Proactively identified emerging AI-driven traffic sources in GA4 generating $250K+ in revenue impact, developing new acquisition metrics integrated into weekly executive reporting.
- Designed and evaluated controlled A/B experiments across onsite merchandising and promotions, applying statistical significance testing and lift analysis to inform optimization decisions using Dynamic Yield.
- Applied correlation analysis, hypothesis testing, and regression-based modeling prep to evaluate behavioral and revenue trends, supporting early-stage promotional forecasting.
- Evaluated category-level customer behavior by integrating loyalty survey and transactional data to identify high-value and under-penetrated segments, informing targeting and merchandising strategy.
- Built and maintained Power BI dashboards (DAX, Power Query) and delivered executive-facing analyses to VP-level stakeholders, recognized for translating complex data into insights that influenced strategic direction.
- Analyzed promotional events — evaluating discount depth, margin impact, and purchasing behavior — and recommended guardrails to improve profitability.

Manager, Material Development & Analyst Jun 2022 – Mar 2025

Adidas Golf | Carlsbad, CA

- Led reporting and analysis of product and material performance across $200M+ in annual revenue, informing sourcing, margin optimization, and seasonal assortment decisions.
- Drove proprietary fabric innovations (Twistweave™, Twistknit™), contributing to a 66.7% gross margin improvement across the Men's ULT365+ range.

Material Developer, US Team Sports Apparel Jul 2019 – Jun 2021

Adidas | Portland, OR

- Identified $40K+ in cost savings through material utilization analysis; increased recycled content to 70% within one season through supplier and sustainability data analysis.

Women's Intimates & Youth Designer Feb 2018 – Mar 2019

Nordstrom | Seattle, WA

- Owned private label product lifecycle and presented seasonal assortments to buyers; built Excel dashboards for material performance analysis driving supplier cost reductions.
